- Let's bring home our own garbage
- Let's stop throwing garbage into the water
- Let's keep our manners on the sea

Safety precautions

- Before using, please read the instruction manual carefully and use it correctly.
- Unreasonable operation shortens product life and may cause engine failure or accident.
- Be sure to perform periodic inspections to prevent engine failures and accidents.

If you have any comments or questions about the product, please contact us through contact_ymia@yanmar.com

It's sea time

A spacious cabin space with one of a kind layout.
From quiet and comfortable long cruising to exciting
fishing, here is a relaxing space and time where you
can enjoy the sea to the fullest.

DIESEL INBOARD FISHING CRUISER

VX30B

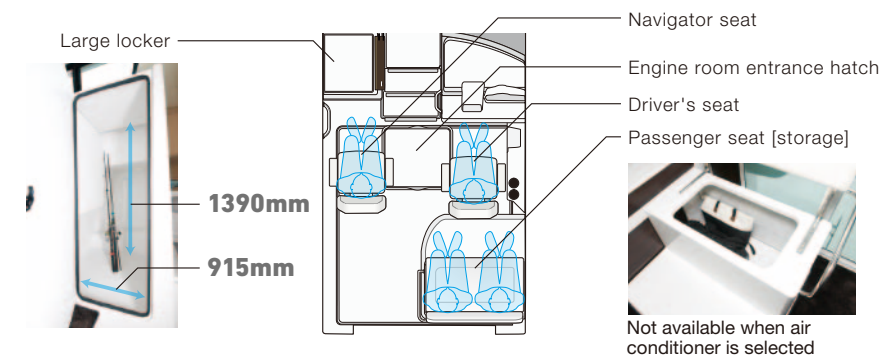

Spacious cabin space with a sense of openness.
 Create a luxurious time filled with freedom and smiles.

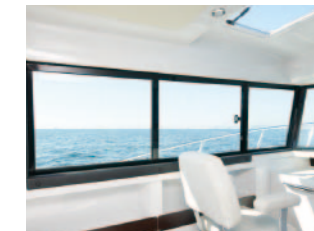

Cabin

The ceiling height is 1830 mm, designed for guests sitting on the passenger seat to have the same line-of-sight as captain. Plenty of storage space such as large lockers, and the space in the back is adjustable according to the users. In addition, a marine air conditioner (factory option) could be installed for a more comfortable stay on the sea.

Equipped with customized and reliable engine & marine gear.
Realizing a quiet and exhilarating ride that makes conversation lively.

■ **Electronically controlled common rail engine [8LV350]**

The world-renowned electronically controlled 8LV engine is fuel-efficient, powerful, environmentally friendly, and has excellent durability. Furthermore, it is equipped with a 500L large fuel tank, enabling long cruising.

■ **Marine gear [KMH61A-1S]**

Improved durability, adoption of a trolling system with propeller speed feedback function, etc., like the 8LV engine, it is customized for any fishing style.

8LV350
257kW
/ 3800min⁻¹ FW output

■ **YANMAR proprietary control system [VC20]**

■ **Soundproof double structure**

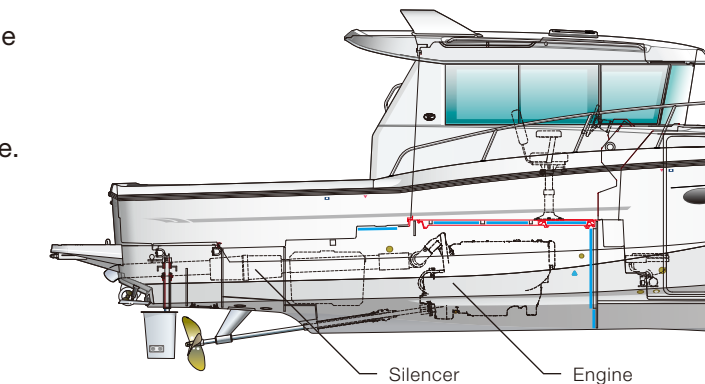

The floor surface is doubled, and the sound absorbing material is applied to the hollow part to reduce the engine noise while running. Also equipped with an engine anti-vibration support and an exhaust silencer to pursue low vibration and low noise.

Engine room entrance hatch [Aft]

Engine room entrance hatch [Cabin]

■ Double floor
■ Sound absorbing material

A comfortable ride created by advanced styling.
Enjoy the fun of driving.

Helm station

Driver's seat

Overhead driver's seat console

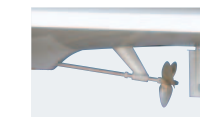

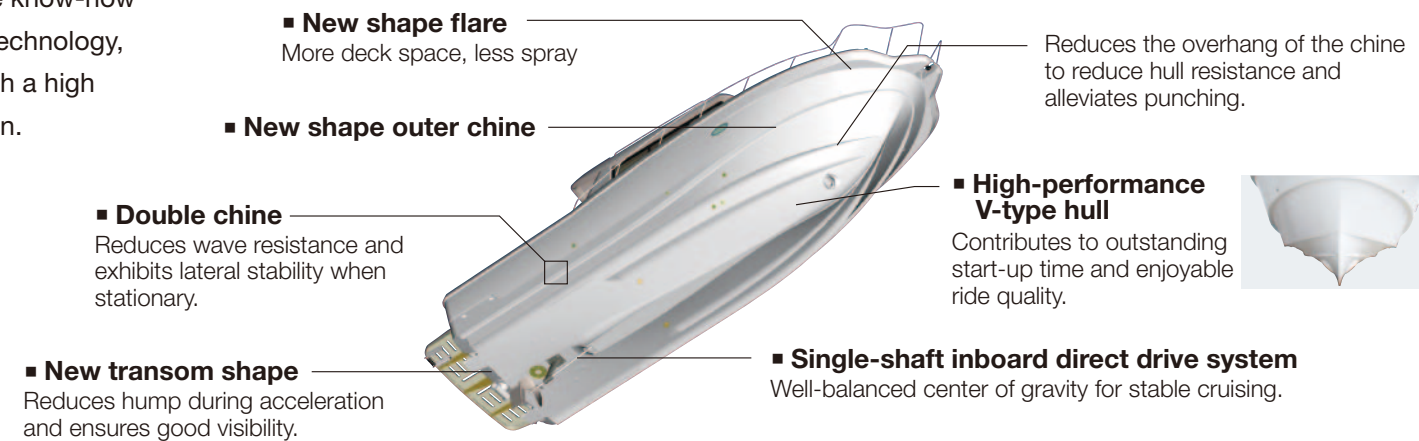

Wiper / window washer

Three 10-inch class navigation instruments such as GPS can be installed in the counter space and upper part of the large locker.

Also radio and audio can be mounted on the overhead console.

In addition, it is equipped with a driver's seat with armrests that can be adjusted for the optimal maneuvering position.

Utilizing our unique know-how and cutting-edge technology, we design hulls with a high degree of perfection.

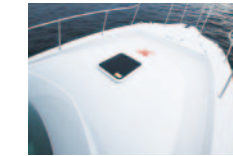

Suitable for various fishing styles,
to support your own unique fishing experience

Aft Deck

Bow deck

Anchor storage

Bow rail

Storm rail

Side deck

Open bulwark

Large livewell

Storage / Propeller & Steering inspection compartment

The flat aft deck, which has a maximum width of 2740mm and a depth of 2250mm, the height of the deck is close to the surface of the sea. And a sufficient bulwark height of 630 mm is secured for ease of fishing. The wide bow deck and easy-to-equip design allow you to enjoy various types of fishing.

■ **Radar gate**
Navigation instruments such as radar and GPS antenna can be installed.

■ **Fin keel**
It cuts sharply into the waves and suppresses side currents and punching caused by the wind.

■ **Aft deck steering station**
With optional equipment, operation can be done from inside cabin or from Aft deck.

Pursuing safety and comfort even when anchoring or mooring at the marina.

Thruster makes it easy to operate when berthing and leaving. It is fully equipped with comfort and safety in mind, such as a large rear door for easy entry and exit, you can also set the aft deck sink, which is convenient for washing hands.

Specifications

Model	VX30B
Full Length	9.57m
Full Width	3.20m
Full Depth	1.82m
Engine model	8LV350
Maximum output ※FW output value	257kW/3800min ⁻¹ [350ps/3800rpm]
Rated output	234kW/3683min ⁻¹ [318ps/3683rpm]
Installation method	Anti-vibration
Fuel tank	500L
Set mass	4140kg
Clutch [reduction ratio]	KMH61A -1S [2.04]
Steering machine	Static hydraulic
Remote controller	Electronic one-handle type
Battery	145G51×1 115F51×1 [sub-battery]
PTO	400mm
Propeller installation type	Bracket type
Propeller	3-blade integrated aluminum bronze

*The height from the draft to the surface of the water indicates the value when the boat is lightly loaded.

General Equipment List

[• Standard □ Factory option]

Bow	• Transom step	• Skylight hatch x2 [port side, starboard side]
• Bow sprit	• Electric trim tab	□ Marine Air Conditioner
• Anchor storage [with lock]	• Aft deck Steering Station	Berth
• Cleat	• Aft deck sink ^{*1}	• Berth cushion
• Bow pulpit	• Deck washer	• Shelf
• Bow rail	□ Aft deck awing	• Back rest
• Bow thruster [electric]	□ Spanker	• Sea view window
• Navigation light	Cabin	• Roomlight
• Bow roller [include cleat]	• Overhead console	• Skylight hatch
Cabin exterior	• Counter	• Table
• Wiper	• Destroyer wheel [with knob]	Toilet
• Window washer	• Analog meter	• Marin toilet
• Storm rail	• Switch panel	• Fan
• Radar arch	• Flood alarm device	• Toilet paper holder
• Hand grip	• Breaker panel	• Door
• Fuel port with key	• Main switch [relay type]	• Sea view window
• Sliding rear door	• Cup holder	• Roomlight
• Aft deck light [LED]	• Driver's seat [with armrest] ^{*2}	• Sink ^{*1}
• Search light	• Navigator seat [with armrest] ^{*2}	Engine room
• Marine horn	• Foot rest	• Exhaust Silencer
□ Shore power equipment	• Passenger seat	• Ventilator
Aft Deck	• Sliding side window [port side, starboard side]	• Bilge pump
• Large livewell [with lock]	• Counter pad	• Seawater strainer
• Storage x 2 [with lock]	• Side pad	• Stern tube [seal type]
• Propeller/Steering inspection compartment [with lock]	• Large Locker [with door]	• Shock absorbtion rubber
• Propeller inspection window	• Shelf [side panel]	• Hydraulic steering system (Static)
• Engine room entrance hatch [with lock]	• Side panel locker	• Engine room light [LED] × 2
• Transom gate	• Hand rail [Large]	• Main battery
• Mooring hole	• Handrail [small]	• Sub battery
• Cleat	• Roof rail	□ Marine Generator
• Exhaust muffler cover	• Roomlight	
• Boarding ladder	• Engine room entrance hatch	

*1. a set with a fresh water tank(60L) *2. with rotary/sliding damper
